Subject: For MBR Slide

DeAndre – per our conversation I’ve put together a few points on the current status of Alt EN. There is a lot going on up there so wasn’t sure how best to capture this. Let me know if this works or if you need anything else or have questions.

AltEN Update

• **Ex. 5 Deliberative Process (DP)**

- Lagoon liners are damaged and NDEE is awaiting ground water monitoring results.
- Area residents have been advised not to utilize ground water for drinking water for historical reasons, NDEE was unclear if some may doing so.
- UNL Apiarist has raised concerns about potential impacts to pollinators and alleged impacts to human health.
